

MARIA DEL CARMEN VALENZUELA OCAMPO

FOOD SAFETY TRAINER

EXPERIENCE IN STANDARDS

BACKGROUND

Trained in Industrial Engineering with more than 10 years of experience as an implementer, coordinator, auditor, and instructor in food safety and quality management systems in food companies. She also has extensive experience in the development and implementation of supplier audit programs in various sectors such as dairy, meat, fruits and vegetables, processed foods, packaging manufacturing, bio-chemicals, warehousing, and distribution, among others.

Within Global Standards S.C. she has served as technical manager of quality and safety and as a member of the technical committee of certification for FSSC 22000, ISO 22000, ISO 9001, Global Markets, HACCP, and GMP standards, following up on audits and requirements of the accrediting bodies. She has participated as a speaker in different forums related to the food industry at national and international levels, such as INLAC Guatemala, Inocuo TV, and GlobalSTD Safety and Quality Congress, among others. Currently, she works as an instructor and technical course developer for GlobalSTD online platform.
